

PCTrackContainer::toMarkerGaussians

cb_rgb

main

```
graph RL; main --> cb_rgb; cb_rgb --> PCTrackContainer::toMarkerGaussians;
```

The diagram illustrates a call sequence between three components. On the right is a box labeled 'main'. A blue arrow points from 'main' to a middle box labeled 'cb_rgb'. Another blue arrow points from 'cb_rgb' to a leftmost box labeled 'PCTrackContainer::toMarkerGaussians'. The leftmost box has a gray background, while the other two are white.
